THE XC DRILL

TERRATEST.COM.AU

THE XC DRILL

The XC Drill is one of the smallest rigs in Australia, offering access to the most remote and normally inaccessible areas. Its dimensions allow the rig to fit in doorways, carpark, footpaths and many other confined spaces. Making it an ideal solution for drilling programs that demand high productivity in difficult terrain.

SPECIFICATIONS

Length	2,100mm
Width	800mm
Weight	900Kg
